

GlowFur - Making you glow in the dark

Posted on April 3rd, 2007 by Ali

I've seen it all now, ok maybe not. But this is definitely something that needs to be spoken of. A company out of Colorado called [GlowFur](#) is making some really funky looking fur apparel for those who dare to wear it.

Making fur jackets, sweaters, bolero's, vests, clubwear and more the fur glows - in the dark only I presume - and will definitely make you the center of attention wherever a night club can be found.

The new spring line sweaters have a detachable GlowFur collar. The pricing is a little steep for most of the items on the site, the denim jacket shown below is only \$99.00, the Bolero below is \$445.00
