I am sure you must have never seen something like this before. A concept of [GlowFur](#) fashion apparel, these are clothes crafted from faux fur with special internal lighting technology. The party animals are going to love the flashy club wear that includes a top, skirt, and leggings. Unlimited attention comes guaranteed with each of the piece that you buy. Men don't need to glow green with envy, as there is stuff for them too. Men may opt for glowing coats, long coats and vests. For a more subdued look, you may go for simple sweaters with glowing fur lining, so that you don't scream attention. Available are not only clothes, but some funky glowing accessories like scarves, hats and handbags too. Reasonably priced, glowing clothes are a great option for fashionistas who love to experiment with their style.
